

## SADC-CSC EXTREME TEMPERATURE ADVISORY

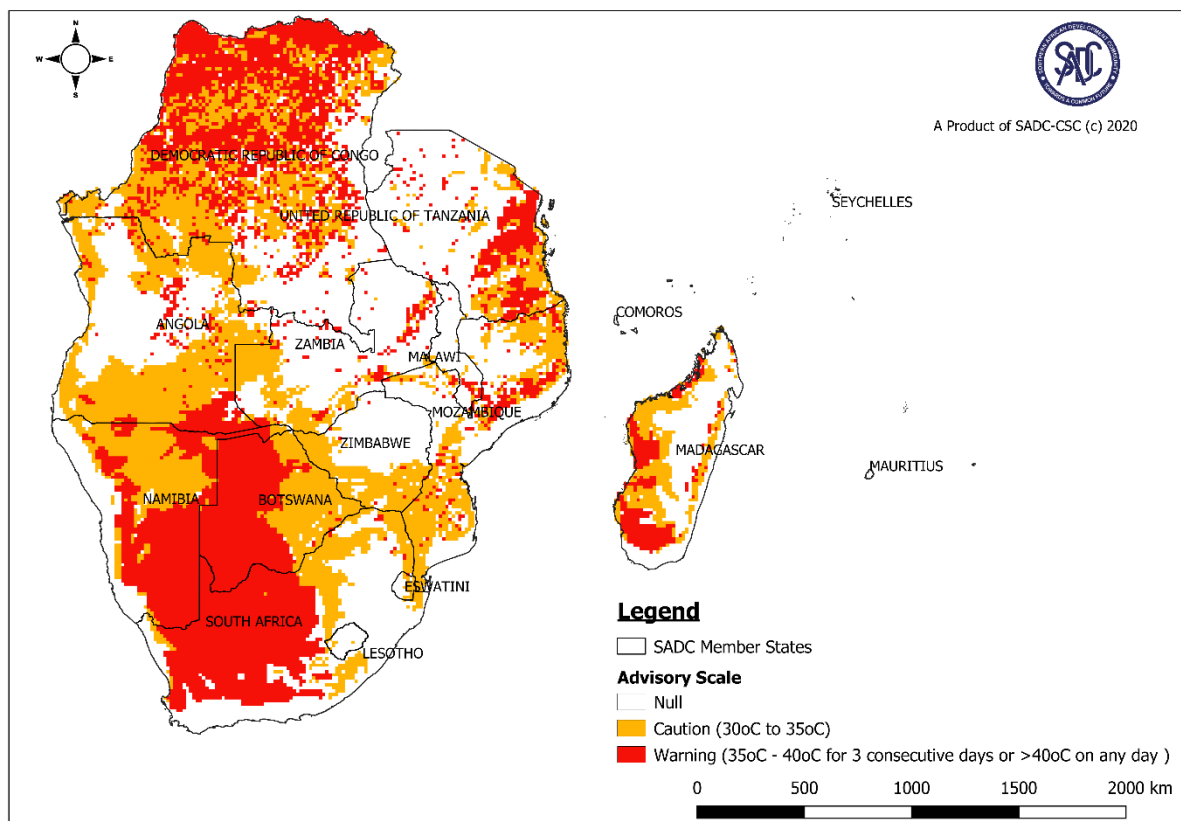

**Issue Number:** 10 of 2019/20 Season

**Release Date:** 15/01/2020

### HIGHLIGHTS

**HEADLINE:** Maximum temperatures reaching the heat wave thresholds are expected in western parts of the SADC Region

Temperature forecasts indicate an increased probability of temperatures exceeding 40°C to be recorded in central towards eastern parts of the SADC region during the next seven (7) days (Figure 1). Parts of south western and eastern SADC will experience persistent temperatures above 35°C over three (3) consecutive days and occasions where temperatures reach above 40°C during the forecast period of 15 – 22 January 2020.

## RECOMMENDED ACTION

National Meteorological and Hydrological Services are urged to closely monitor temperature patterns and update relevant institutions such as Disaster Risk Management and Health Agencies at Member States on precautionary measures against the extreme temperatures.

*Users are encouraged to consult National Meteorological and Hydrological Services at Member States for interpretation of this advisory.*

## NEXT ADVICE

The next advisory will be issued dependant on a sustained high temperature forecast expected to occur in more than a single SADC Member State
